HITCH ALIGNMENT & BACK-UP CAMERA

4843DATSEN
BACK-UP CAMERA KIT

Master Lock Electronics - 4843DAT
Avoid that precariously placed bike in the driveway or make it easy to line up your hitch for towing by installing this wireless backup camera. Monitor includes a 3.5" color screen, and the whole system plugs in - no cutting or splicing wires.

Has T-style connector that allows you to tow trailer even with camera installed
Convenient mounting for backup or hitch-alignment functions Slides into a 1-1/4" or 2" hitch when you are not towing Hitch lock (sold separately) will secure camera in hitch Mounts to any ferrous metal surface of vehicle with magnetic base when you are towing. Has low-light capability. Mounts to air vent, dashboard or windshield Plugs into vehicle auxiliary power/lighter plug - no batteries to charge
1-Year limited warranty
